SLEEPY DRIVER GETS ATTRACTIVE HALT'S FUNERAL FOR HOLIDAYS

H. L. Baskett Arrested for Driving Through Procession and Knocking Horses Down.

Apparently without looking up and seeing where he was going, H. L. Baskett, who gave his occupation as a farmer, yesterday drove his cart through a negro funeral procession, partly overturned a carriage containing four people and knocked down both horses.

Major Werner, with several citizens, was just coming out of the City Hall and saw the horses struggling on their sides, and Baskett driving off as if nothing had happened, and as if he held of the driver, ordering him to come down. Baskett clung to his seat tenaciously, and refused to come down from his perch. He was pulled down, and was taken into police headquarters, and was later locked up in the Second Station on a charge of being drunk and driving his cart through a funeral procession.

The carriage which was partly overturned belongs to A. D. Price, and was being driven by Joe Price. It was some time before the horses could be freed so that they could regain their feet, and once it looked as if one of the horses would be killed by the other in its struggles. Finally it was found necessary to cut the harness, when the horses, apparently unharmed, got on their feet again.

The funeral procession was halted, and another carriage had to be procured. The damage will be rather extensive.

Judgment Against City. Judgment was entered in the Law and Equity Court yesterday morning for \$200 in favor of Frank W. Carter, who sued the city for \$250. The case came over from the civil justice court, where Carter was awarded \$250.

The suit of William Kopp against the Southern Railway Company to the amount of \$42.50 was on trial yesterday afternoon, and probably will be decided this morning.

VETERAN GUNNERS ELECT OFFICERS

Howitzers' Association Plans Reunion With Active Members.

ALSO IS NEW PRESIDENT

Three Members Answered Last Call During Past Year.

New officers for the ensuing year were elected at a meeting of the Howitzers' Association held yesterday evening at 6 o'clock in the rooms of the Chamber of Commerce. They are: President, Beswell Allen, Third Company; First Vice-President, James T. Gray, First Company; Second Vice-President, James A. Grigg, Second Company; Secretary, Charles G. Boshier; Treasurer, Samuel H. Bowman; Executive Committee—John S. Ellett, D. O. Davis, Robert S. Crump, John A. Hutchison and Frank A. Arnsens. The meeting was the annual one and was presided over by President William H. McCarthy. After the minutes of the last meeting were read and approved, the president called for the report of the treasurer S. H. Bowman, which was read, showing a balance in the treasury, also the report of James T. Gray, chairman of the banquet committee. Election of officers followed, the committee on nominations appointed by the president, being composed of the following: C. E. Wingo, J. Taylor Bilyson and H. M. Starke.

The chair appointed the following committee on banquet: James T. Gray, J. Boshier, E. Loring and the committee.

On motion of Captain E. J. Boshier, a committee was appointed to confer with Captain Myers, of the Howitzer Battery, with the idea of having a joint reunion of the old and new Howitzers at the first anniversary of the present company on December 13.

Lucien W. Phillips was elected a member of the association. The secretary reported that the following members had died since the last reunion: Charles U. Williams, Walter R. Goodwin and Walter H. Morris. On motion the names of these members were placed on the "Memorial Page." After discussing other business, the meeting adjourned until the reunion in December.

Among those present were: J. Taylor Bilyson, John S. Ellett, W. H. McCarthy, C. G. Boshier, J. A. Grigg, J. T. Gray, J. S. Boshier, H. M. Starke, W. E. Word, J. T. Watson, S. H. Bowman, J. M. Myers, F. A. Arnsens, E. J. Boshier, C. E. Wingo, George L. Christian and others.

CHARTERS ISSUED

The following charters were issued yesterday by the State Corporation Commission:

Plant, Realty Corporation, Standardville, Va. Morris D. Brown, president; Olive J. Brown, vice-president; Edna W. Brown, secretary; Morris D. Brown, treasurer. Capital stock, \$10,000; minimum, \$10,000. Objects and purposes: Real estate business.

Providence Forge Fishing and Hunting Club, Incorporated, Richmond, Va. Walter Scott, president; J. F. Mattera, vice-president; E. R. Lafferty, secretary and treasurer. Capital stock, \$10,000; minimum, \$10,000. Objects and purposes: Fishing and hunting club and operate a grist mill.

Lane & King Company, Inc., Richmond, Va. Leslie Powell, president; L. E. King, vice-president; W. Lane, treasurer—all of Richmond. Capital stock, \$10,000; minimum, \$10,000. Objects and purposes: Clothing business.

S. E. Bishop Shoe Company, Inc., Richmond, Va. S. E. Bishop, president; H. Lee Bishop, secretary and treasurer. Capital stock, \$10,000; minimum, \$10,000. Objects and purposes: Shoe business.

An amendment was issued to the charter of the Bank of Shenandoah, Incorporated, of Shenandoah, Va., decreasing the maximum capital stock from \$25,000 to \$10,000, and the par value from \$100 to \$10 a share.

To Buy Auto Fire Engine. Mayor D. C. Richardson yesterday authorized the Board of Fire Commissioners to purchase an automobile triple combination fire engine, chemical and hose wagon. The cost is not to exceed \$5,000.

NO DECISION AS TO BRIDGE RENTAL

Question of Charging Street Car Company \$3,000 a Year Under Discussion.

PLAN IS TO DOUBLE CHARGE

City Engineer Bolling Testifies That Railway Tracks Don't Hurt Structure.

Without final action, the Subcommittee on Streets, which met yesterday afternoon for the purpose of considering an ordinance referred from the Board of Aldermen fixing the tolls of the Virginia Railway and Power Company across the Free Bridge at \$5,000 per annum, adjourned subject to the call of the chairman. The interval will be utilized by the subcommittee in gathering information on the subject. At the next meeting, Engineer Isaac, of the Chesapeake and Ohio Railway, who has had charge of the bridge under the commission, will be summoned to give his opinion of the structure in general and the effect of street cars. Calvin Whiteley, Jr., of the Virginia Railway and Power Company; City Engineer Bolling, City Engineer Bolling and City Accountant George S. Crenshaw will also testify.

Most of the subcommittee's time yesterday afternoon was taken up by Attorney A. B. Gulgon, of the Virginia Railway and Power Company, who viewed the history from 1890, when the first contract was made, and the commission, by which the company paid \$600 per annum for the use of the bridge. Later on, when, on account of the condition of Mayo's bridge, the company was obliged to bring the Hull Street line across the Free Bridge, a five-year contract was made at the amount was doubled to \$1,200 per annum.

The present time is \$1,500 per annum. The president stated that while the company did not object to paying the rental now exacted, it was his belief that the bridge was as much a city street as Broad Street, and that no charge at all should be made. He pointed out that the company was required to keep up the bridge between the rails and for a specified distance on either side of the tracks, as in the case of streets, and to place adequate timbers under the road-bed.

He defended the company's position by producing figures to show that it was the largest taxpayer in the city, having paid in taxes, not including paving, street sprinkling, free lights, free tickets and half-rate fares, which bring the total up to \$147,790.05. He went into other facts and was endorsed in his statement by Fritz Sittler, who was also present.

Trucks Are a Benefit. City Engineer Bolling said he was not prepared at this time to make an exhaustive report concerning the conditions, but that he had made a cursory inspection after the structure was turned over to the city by court order, with the view of making certain repairs.

Mr. Gulgon, he thought that the vibration caused by heavily loaded wagons more damaging than the street cars, and that the tracks and timbers greatly reduced the strain and vibration on the whole he thought the trucks a benefit.

The resolution under consideration by the committee provides that the increased rental shall be in effect when the contract for the Virginia Railway and Power Company with the city expires. Mr. Gulgon explained that there was no limit to the contract, as the commissioners had reserved the right to rescind it at will after the expiration of the original five-year contract some years ago. So, as the city has taken over the bridge as it was held by the commissioners, the city should be paid at once.

The amount is to be paid to the City Treasurer in twelve installments of \$250 each, according to the terms of the new ordinance.

INVITE PUBLIC TO ALL MEETINGS

Trustees of National Jewish Hospital to Describe Great Work in Denver.

The meeting of the trustees of the National Jewish Hospital for Consumptives, which will take place tomorrow night at 8 o'clock, will be of great interest, and it is fortunate that these meetings are all open to the public.

The sessions of the annual meeting will take place in the school room of Beth Ahava Synagogue, on Sunday morning at 10:30, and in the afternoon at 2 o'clock. The president, the president and superintendent of the hospital, which will be given at the morning meeting, will prove to be very instructive and will shed much light upon the work of the hospital and the treatment of this dread disease, in which this hospital has been singularly successful.

The following teams made the largest scores: Captain G. H. Stiegler, 4 points; Captain W. H. Stiegler, 3 points; Captain J. H. Stiegler, 2 points; Captain D. H. Stiegler, 1 point. Captain Dr. W. H. Stiegler, 10 points; Captain Dr. W. H. Stiegler, 10 points.

Plans Approved for School. Plans for the proposed new public school building at the corner of Pine and China Streets, to which Miss Grace Arents donated \$5,000, have been examined and approved by the City School Board, and will be forwarded to the next meeting of the Council. Approved there, they will go to the Building Inspector.

Will Present Blues' Cup. The cup won by Company A, of the Blues, in the recent match to Petersburg, has just been delivered at the armory. It is a handsome engraved affair of silver. Major B. W. Bowler will present it to Company A on behalf of the battalion next Thursday night, when the next battalion full dress parade will be held at the armory.

A company, to achieve permanent possession of the cup, must win it three successive years.

Now Is the Time. In early years is the time to save. Learn now, before extravagant habits are formed. Start with \$1.00 and earn 3 per cent. compound interest.

The Savings Bank of Richmond 1117 East Main Street.

WANTS HOSPITAL FOR DRUNKEN

Superintendent of Asylum Makes Novel Recommendation to Governor.

SHOULD GO FOR TWO YEARS

Believes Liquor and Drug Victims Should Have Medical Treatment.

Advocating the establishment by the State of a separate institution for the care and treatment of persons addicted to liquor or drug habits, the annual report of Dr. J. C. King, Superintendent of the Southwestern State Hospital for the Insane, at Hillsboro, received yesterday by the Governor, is full of interesting material. Of recent years, especially, there has been an increase in the practice of sending people who drink or "dope" to excess to hospitals for the insane. In view of this, Dr. King makes his recommendation, saying that the treatment of such individuals is an important part of the work of a State hospital. Removed from the means of gratifying their habit, and under the careful treatment of alienists, they soon become entirely sober, and within a few weeks are mentally sound. But the appetite remains, and upon their release they often go back to their habits.

Treat for Two Years. The State, Dr. King says, should care of the inebriated. Dr. King's suggestion runs, should treat no other kind of case. It should receive patients removed from the means of gratifying their habit, and who have been committed to it for the period of two years, upon the application of relatives or friends. The report should be made at the expiration of two years, and if the patients should be required to work. He thinks many could be completely cured.

As a matter of fact, sociologists and physicians have previously advocated action along this line, and it would not be surprising if the matter should be presented to the Legislature in the near future in some tangible shape.

Report says that on October 1, 1909, there were 644 patients at Marion. During the year ending June 30, 1910, 225 were admitted, making a total of 869. The daily average was 746. Twelve were discharged during the year as recovered, sixty-two as improved and eight as not insane. The number of deaths was forty-four. On September 30, 1910, there were 679 patients.

Overcrowded. Dr. King says frankly that the medical treatment has not reached the degree of efficiency required. One cause is the handicap by reason of congestion. This will be somewhat remedied to the full extent by the opening of the epileptic colony in the coming spring. He has found that the practice of allowing certain patients to go to their homes on not more than a few days at a time, though, in the care of relatives, has been advantageous.

Plans have been adopted for the new building for the criminal insane, and the structure is being built. It will be 42x174 feet, and will have two stories and a basement. Many needs are given, but the points are not argued in detail, as there is to be no session of the Legislature during the present fiscal year.

Y. W. C. A. WORKERS

Miss Prentiss, of Buffalo, Tells How Plans Can Go Forward.

Enthusiasm was created yesterday in the interests of the forward movement of the Young Women's Christian Association by address delivered in the evening at the local association building by prominent women.

At 8 o'clock a very large audience gathered in the hall of the Young Women's Christian Association for the purpose of listening to the address of Miss Prentiss, president of the Buffalo Y. W. C. A., who presented valuable suggestions for the enlargement of the local association.

Miss Prentiss, president of the Buffalo Y. W. C. A., who presented valuable suggestions for the enlargement of the local association, who stated object of the meeting and explained the significance of the address. The address was delivered by Miss H. W. Bassett, who made a most interesting and valuable contribution to the movement of the local branch under the management of Miss Constance McCorkle, the general secretary, who was called to this duty two years ago. Many societies were present and showed great interest in the Y. W. C. A. work.

ADD 208 TO ROLL

Y. M. C. A. Membership Campaign Ends Amid Enthusiasm.

While the total number of new members hoped for was not secured, those who took part in the Young Men's Christian Association membership canvass feel highly gratified at the success of their campaign. When the returns were completed last night it was announced that 26 new members had been added to the association.

The captains and members of the teams that participated in the canvass assembled last night at a supper which was held in the association building, after submitting their reports to the committee in charge. Great enthusiasm was aroused, and the canvass was renewed in order that the largest possible number of new members might be enrolled before the campaign closed at midnight. The telephone was pressed into service, and other expedients were resorted to to swell the number.

The following teams made the largest scores: Captain G. H. Stiegler, 4 points; Captain W. H. Stiegler, 3 points; Captain J. H. Stiegler, 2 points; Captain D. H. Stiegler, 1 point. Captain Dr. W. H. Stiegler, 10 points; Captain Dr. W. H. Stiegler, 10 points.

Plans Approved for School. Plans for the proposed new public school building at the corner of Pine and China Streets, to which Miss Grace Arents donated \$5,000, have been examined and approved by the City School Board, and will be forwarded to the next meeting of the Council. MILITARY FUNDS MUCH INCREASED

Other Branches of Service to Be Aided Like Field Artillery.

Not only is the appropriation for the care of equipment of field artillery commands in Virginia to be increased by action of the State Military Board, but it would appear from an examination of the text of the resolution adopted at Thursday night's meeting that the board intends to spend a larger amount for each branch of the service. While nothing definite is known in this respect, it is supposed that the language of the resolution indicates an intention to do bigger things for the infantry, for the coast artillery, for the medical corps. This may come in the shape of a larger direct appropriation, as was the case with the field artillery, or it may be cared for in the per capita allowance, or it may be accounted for in additional equipment or in rifle range work.

The fact that with the increase of property values in this State it is possible to collect and expend a constantly increasing amount for the up-building of the military is gratifying to Adjutant-General Sale and to the board. It was largely due to General Sale's efforts that the proposition for State revenue which now stands was given to the Legislature.

Reasons Given. The text of the resolution regarding the allotment for the artillery was as follows:

"Whereas, the funds received from the government of the United States and from the State of Virginia permit larger expenditures for every branch of the service; and whereas the board is satisfied that the care of the guns and equipment of artillery companies, including the hire of horses for drill and employment of skilled mechanics, require additional appropriations; therefore

"Resolved, That each battery of artillery in this State be allowed for maintenance, hire of horses for drill and employment of skilled mechanics the sum of \$2,000 annually, to be paid out of the funds applicable thereto received from the government of the United States or from the State of Virginia, at the discretion of the Adjutant-General. All money to be paid upon requisitions, accompanied by itemized statements, as required by section 377 of the Code of Virginia."

Pay of Officers. A report was received and adopted from the special committee appointed to consider and report upon a schedule of pay for officers performing special duties. The additional expense it was stated, would not be material. The report was as follows:

To the Military Board of the State of Virginia:

"The undersigned, appointed by resolution of the board to consider and report what, if any, changes should be made in the present allowance of pay to officers when on duty not in actual service, respectfully report that—

"1. In our opinion the pay for all officers attending examinations, making inspections, attending elections, and other similar duties, should be the full amount of pay of their office, including longevity and transportation, without commutation for quarters."

"2. It is our opinion that it would be proper also for officers serving on military courts to receive the pay as indicated above, but that the statute of this prescribes the pay for such duty, and in order to change it the statute will have to be amended."

"3. In our opinion many company commanders presiding over company meetings should not receive compensation."

"Respectfully submitted, (Signed) "C. C. VAUGHAN, JR., "Brigadier-General Va. Vols. (Signed) "JO. LANE STERN, "Lieutenant-Colonel, etc., "November 10, 1910."

HUSTINGS COURT CASES

Five Convictions Result, and One Is Jeopardy.

Jesse Williams, charged with malicious wounding, was convicted of unlawful wounding in the Hustings Court yesterday, and was sentenced to nine months in jail and to pay a fine of \$5.

The case against C. R. Barfoot, charged with maliciously wounding F. G. Pearce, was nolle prossed.

James Turpin, charged with car-breaking, was sentenced to two years in the penitentiary.

Arnon Logan, charged with house-breaking, was ordered sent to the negro reformatory.

Robert Ford, charged with malicious wounding, was convicted of unlawful wounding, and was sentenced to ninety days in jail and to pay a fine of \$5.

George Smith, charged with malicious wounding, was convicted of unlawful wounding, and was sentenced to twelve months on the roads and to pay a fine of \$5.

SHERIFF FAILED TO COME

George Wells Aggravated at Delay in Hearing of Charge Against Him.

George Wells, upon whom a warrant charging him with having violated the automobile laws in Roanoke county on September 4, was served yesterday, and made his second appearance in Police Court yesterday morning, but again Sheriff C. H. Hatcher, of Roanoke county, failed to be present.

Mr. Wells, who declares he can prove an alibi, is much put out by having a warrant continually hanging over his head, and the case appearing as far off from being tried as ever. It again gave security in the amount of \$100, and the case was continued to November 25. Sheriff Hatcher will be notified that he must be present on that date.

Mr. Wells stated that on the day he is alleged to have been in Roanoke county, he had an accident between Richmond and Laurel, which put his car out of commission.

SPLENDID LEGAL ARGUMENTS MADE

Beury and Davis Case Heard in Supreme Court—Murder Cases Ended

According to the attorneys who listened yesterday to the discussion before the Supreme Court of Appeals in the case of Beury and others against Davis, seldom are more able legal arguments ever presented to any court. The matter was, however, technical, the points involved being of little interest save to the profession. Three hours was the case debated. William A. Glasgow, Jr., formerly of Roanoke and now at the head of the legal profession in Philadelphia, and as in the Dallas Wright case, at which Judge C. C. Watts, of Charleston, W. Va., and Allen Caperton Braxton, of Richmond, were counsel for the appellee, Judge Watts is a former Democratic nominee for Governor of West Virginia.

Hearing Ended. The case involves a land deal, in which Davis is alleged to have acted as an agent, although the opposite was contended by the appellants. He brought the suit in this State, although the deal was in West Virginia. In a former decision, Judge Keith held that no compensation should be paid Davis as it was contrary to sound public policy to have a person represent both parties, which it was said was done in this instance. Argument was continued in the case submitted.

The two remaining Buckingham murder cases were briefly argued and submitted, the points being the same as in the Dallas Wright case, in which was heard Thursday. S. Hall represented Richard Perkins and Aubrey E. Storde spoke for Ed Jones, the Attorney-General representing the Commonwealth.

The next cases to be called are: Hecksher and others against Blanton and others; Dale Carter's heirs against Cooper and Skeen, and the Atlantic Trust and Deposit Company against the Union Title and Trust Corporation. The latter will include the privileged docket. Following will come the case of Adams against Cumberly, the Washington, Alexandria and Mount Vernon Railway Company against Vaughan, Pond's Administratrix against the Norfolk and Western Railway Company, and Wright against Collins's Administratrix.

Police Court Cases.

John Early, alias "Red," colored, was fined \$25 and placed under \$300 security for six months in the Penitentiary for a charge of assaulting William Logan. On the charge of carrying a concealed weapon he was fined \$100 and placed under additional security of \$100 for twelve months.

Cornelius Banks, colored, charged with assaulting Buck Hopkins, was fined \$25 and placed under \$300 security for six months.

Captain Charles M. Wallace delivered a lecture on the army rifle last night before the Officers' Association of the First Battalion, First Regiment, Captain Wallace, who is an enthusiastic rifleman and one of the crack shots of the National Guard of Virginia, had some interesting things to say about the mechanism and care of the weapon, and also about its efficient use.
